

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

3

3BCAR (CARNOT)

www.3bcar.fr

3BCAR Carnot institute (Bionergy, Biomolecules and Biomaterials from renewable carbon) undertakes multidisciplinary approaches in order to develop the use of biomass in the fields of energy, chemistry and materials.

3DCERAM

www.3DCeram.com

3DCeram develops and produces parts technical ceramics.

3DS - DASSAULT SYSTEMES

make.3dexperience.3ds.com

PLM (Product Lifecycle Management) solutions, simulation and CAD software from DASSAULT SYSTEMES empower users to create, share and experience products in 3D. We help our customers from Aerospace Industry bring more innovative products to market faster.

A

ADEME

www.ademe.fr

ADEME participates in the implementation of public policies in the fields of the environment, energy and sustainable development.

ADETEL GROUP - CENTUM ADENEO (MEMBRE ASRC)

www.adetelgroup.com

Design, production and industrialization of electronic systems and software in constrained environments.

AGILENT TECHNOLOGIES / MOLECULAR SPECTROSCOPY

www.ilabsolutions.com

iLab Solutions is the leader in providing web-based management services to research institutions. Its functionality includes service request management, storeroom management, sample processing, equipment reservation management, usage tracking, billing and invoicing, reporting, and lab requisitioning, tracking tools.

AGILENT TECHNOLOGIES / MOLECULAR SPECTROSCOPY

www.ilabsolutions.com

iLab Solutions is the leader in providing web-based management services to research institutions. Its functionality includes service request management, storeroom management, sample processing, equipment reservation management, usage tracking, billing and invoicing, reporting, and lab requisitioning, tracking tools.

AGRIFOOD TRANSITION (CARNOT)

www.agrifood-transition.fr

AgriFood Transition is attempting to deliver real answers to these issues and to address the concerns of producers and their customers, and local communities.

AIR LAB CONTROL

www.airlab.com

R&D on innovative materials for air quality. Functionalization of surfaces.

AIRCAR (ACTION CARNOT FILIERES)

www.aircar-carnot.fr

Carnot sector for aeronautics AirCar aims to enhance the competitiveness of SMEs and ETI by facilitating their access to R & D resources and innovation on the following topics : materials, more - electric aircraft, sub-systems, new uses.

ALCIOM (MEMBRE ASRC)

www.alciom.com

Consulting and R&D company specialized in electronics: technological consulting, feasibility studies, as well as turnkey R&D services.

ALCYM

www.alcym.fr

Development of complex dominant electronic products, computer and mechanical engineering.

ALPHANOV

www.alphanov.com

ALPhANOV is a private, non-profit organization and is the Technology Center of the French Route des Lasers competitiveness cluster. It provides technical resources and expertise required to fulfill R&D challenges and innovative development in photonics.

ALSACE BIOVALLEY

www.alsace-biovalley.com

Alsace BioValley, the Life Sciences and Health Cluster in Alsace, has the mission to federate and support the public and private players in the sector in their development and growth.

AMIES - AGENCE POUR LES MATHÉMATIQUES EN INTERACTION AVEC L'ENTREPRISE ET LA SOCIÉTÉ

www.agence-maths-entreprises.fr

The agency maths companies offers a free service of connection between companies and researchers in mathematics. The applications targeted range from digital simulation to data processing, modeling, optimization, image processing, etc.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

ANALYSES ET SURFACE - LABORATOIRE ERIC BEUCHER (MEMBRE NAE)

www.analyses-surface.com

Realization of studies, performing tests and characterization on materials.

ANRT - CIFRE

www.anrt.asso.fr

Cifre-Defense is a support program for DGA's (Ministry of Defense) public-private partnership research which aims at co-financing the work of doctoral students in a company.

ANTINEO

www.antineo.fr/fr

In vivo development of original tumor models for resistance to immunothérapies.

APTCO INVEST - FRANCE SCIENTIFIQUE

www.france-scientifique.fr

France Scientific is a supplier of measuring instruments for research and development testing laboratories and control production.

ARBEAUSOLUTIONS

www.arbeausolutions.fr

Development of software for the diagnosis and management of vegetation at risk for hydraulic structures.

ARTS (CARNOT)

www.ic-arts.eu

The ARTS Carnot institute develops skills and technological research works in the field of engineering sciences for product design, energy systems and the interactions between materials and manufacturing processes.

ASICA

www.asica.com

Design, conception, industrialization, certifications, prototypes, manufacturing, testing and packaging electronic devices.

ASRC - ASSOCIATION DES STRUCTURES DE RECHERCHE SOUS CONTRAT

www.asrc.fr

The ASRC is a federation of 43 R&D private structures spread throughout the French territory.

ATHERM

www.atherm.com

Atherm is a leading manufacturer on electrical immersion heaters market. It is also a main actor on coolers market.

ATLANPOLE BIOTHERAPIES

www.atlanpolebiotherapies.com

Atlanpole Biothérapies is a competitiveness cluster focused on the cities of Nantes and Angers, whose ambition is to become an international reference centre in the field of biotherapies. Thus, the cluster's primary objective is to strengthen and align research and development projects on: immunobiotherapy, cellular and gene therapies, radiopharmaceuticals and biomaterials.

AUVALIE

www.auvalie.com

Auvalie offers advice and support in the financing and organisation of Research and Innovation.

AUVERGNE RHÔNE ALPES ENTREPRISES

www.ardi-rhonealpes.fr

Regional agency for innovation development in Rhone-Alpes.

AYMING

www.ayming.fr

Business performance consulting.
Leading European expert in tax system for innovation, direct subventions and audit of innovation activities in terms of technology or human and social sciences.

B

BOS SOFTWARE

www.bos-software.com

Development and distribution of Screen, a software that allows the interactive vision management of the production flows.

BOSCH

bosch-electronics-services.com/en/

For over 50 years as an electronic manufacturer in France, Bosch is putting its industrial expertise to its customer through an Electronic Manufacturing Services' offer. Bosch is organised to design, industrialize and produce volumes from small to big series cards than full electronic assemblies

BPIFRANCE

www.bpifrance.fr

Financing of SME'S (innovation, international, investments). French public funds for innovative programmes companies.

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

BRGM - ENVIRONNEMENT INDUSTRIEL ET PROCÉDÉS INNOVANTS (CARNOT)

www.brgm.fr

Public institution in Earth Science field for the sustainable management of natural resources and surface and subsurface risks. geological phenomena, new methodologies / techniques, high-quality data, tools for surface, subsurface / resource management, natural risks / pollution, regional planning

BRONKHORST FRANCE

bronkhorst.fr

Bronkhorst France sells locally and provides technical support and maintenance of the range Bronkhorst and M + W Instruments: Flow meters and mass flow controllers for thermal and Coriolis

BT2I

www.bt2i.eu

Business & Technology intelligence for innovation.

BUSINOVE

www.businove.com

For more than 10 years, our firm has provided its expertise to advise its clients on financing their innovations. Specialized in the Research Tax Credit (CIR) and Innovation Tax Credit (CII), a proven methodology that makes BUSINOVE a reference.

C

CABINET HIRSCH

www.cabinet-hirsch-avocats.com

HIRSCH is a law firm registered at the Paris Bar since 1979.

CABINET LEYTON

www.leyton.com

Innovation funding consulting.

CAD.42 SERVICES

www.cad42.com

CAD.42 is a french based company providing real time location system in order to track equipments and people on construction sites connected to the BIM. Our mission is to bring safety technology to workers and innovative tools to optimize the field workflow.

CALNESIS

www.calnesis.com

CALNESIS is a service company that offers to perform physico-chemical measurements. To meet the specific needs of its industrial and academic customers CALNESIS uses and develops devices and advanced experimental techniques.

CALYM (CARNOT)

www.calym.org

CALYM Carnot institute's goal is to accelerate innovation and innovation transfer in the field of lymphoma by strengthening private/public partnerships and offering R&D services from biological targets to market launch.

CAPSULAE (MEMBRE ASRC)

www.capsulae.com

Develops solutions to facilitate the implementation and optimization of ingredients and active components performance through microencapsulation.

CAP'TRONIC

www.captronic.fr

CAP'TRONIC aims at helping French SMEs to improve their competitiveness through the integration of electronic and embedded solutions in their software products.

CARATS (ACTION CARNOT FILIERES)

www.instituts-carnot.eu

Project driven by Carnot M.I.N.E.S, Ingénierie@Lyon, MICA, CEA LETI and CETIM for the fashion and luxury industry.

CARNAUTO - AUTOMOBILE & MOBILITE (ACTION CARNOT FILIERES)

www.carnauto.fr

Carnauto offers ETI, small and very small automotive and mobility qualified listening and a customized solution for their development needs, in the best of times and costs. Its activity covers the engine, materials, architectures, ICT and mobility.

CARNOT CONCEPTION VIRTUELLE ET COLLABORATIVE

www.instituts-carnot.eu/fr

11 Carnot Institutes for Smart manufacturing, digital factory.

CASALONGA CONSULTANTS

www.casalonga.com

Design office Development of local resources; bioclimatic architecture, impact study for the installation of photovoltaic farms

CEBEDEAU

www.cebedeau.be

The Cebedeau team aims to be a trusted scientific partner who will give you completely independent advice during all stages of the design of your treatment project.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

CENTRE DCT (UNIVERSITÉ DE LYON)

dct.ish-lyon.cnrs.fr

Research laboratory of about thirty teacher-researchers, which works on three axes: 1) contract law/commercial law/intellectual property, 2) constitutional law/fundamental freedoms, 3) Decentralization/Lyon Metropolis/Local democracy/Urbanism.

CEREMA EFFI-SCIENCES (CARNOT)

www.cerema.fr

Centre for studies and expertise on risks, environment, mobility and land development.

CETIAT - CENTRE TECHNIQUE DES INDUSTRIES AÉRAUQUES ET THERMIQUES (RESEAU CTI)

www.cetiat.fr

Technical center: testing, HVAC studies, transportation, industrial processes, metrology.

CETIM (CARNOT)

www.cetim.fr

The Carnot Cetim institute brings together Cetim, Technical Center for Mechanical Industries and LRCCP, laboratory research and testing rubbers and plastics. This institute is the R & D tool for 8000 companies in the sectors concerned.

CFD NUMERICS (MEMBRE ASRC)

www.cfd-numerics.com

Specialist in mechanical computational fluid dynamics (CFD), we act as a R & D partner. We work with large groups of the energy, automotive and aerospace sectors.

CHEMPARC

www.chemstartup.com

Platform for startups in fine chemicals and new materials which are looking for a specific and secure environment. Companies benefit from scientific support researchers and share many benefits.

CHIMIE BALARD CIRIMAT (CARNOT)

www.carnot-chimie-balard.fr

Research institute on materials chemistry.

CISTEME - CENTRE D'INGENIERIE DES SYSTEMES EN TELECOMMUNICATION, ELECTROMAGNETISME ET ELECTRONIQUE

www.cisteme.net

Telecommunication systems, electromagnetism and electronic engineering center.

CNCPI - COMPAGNIE NATIONALE DES CONSEILS EN PROPRIÉTÉ INDUSTRIELLE

www.cncpi.fr

CNCPI is the French institute of patent and trademark attorneys

CNEP

www.cnep-ubp.com

Research center on the aging of organic materials.

CNIM - BERTIN TECHNOLOGIES (MEMBRE ASRC)

www.bertin-technologies.com

Bertin Technologies has a highlevel know-how in mechanical, electronic, optical engineering and opto-mechanics, IT real time, automatism and signal processing. It designs and develops models and prototypes, and supplies equipments and systems.

CNRS DIRE - DIRECTION INNOVATION ET RELATIONS ENTREPRISES

www.cnrs.fr

The National Center for Scientific Research, better known by the acronym CNRS, is the largest French public scientific research institute.

CNRS INNOVATION (MEMBRE AFOP)

www.fist.fr

FIST SA is a recognized expert in technology transfer and innovation management. Its expertise in patent landscaping and technology scouting helps companies to manage their innovation projects.

COEXEL (MEMBRE OPTICS VALLEY)

www.coexel.com

Solution and technology services providers and business intelligence specialized in the fields of Electronics, Optoelectronics and Semiconductors. Mytwip monitoring tool for monitoring the visible and invisible web.

COGNITION (CARNOT)

www.institut-cognition.com

Cognitive technologies take into account the individual user, the user's environment, as well as the method of interaction.

CONCEPTION VIRTUELLE (ACTION CARNOT)

Design and implementation of digital representation within the industrial production cycle to facilitate collaboration and digital continuity with digital and connected factory.

CONSTANCES (INFRASTRUCTURE DE RECHERCHE)

www.constances.fr

Epidemiological infrastructure consisting of a cohort of 200,000 adults with questionnaire data, biomedical examinations and matched to the NSDS. Very long-term follow-up.

CREATHES (MEMBRE ASRC)

www.creathes.com

Features in full-service R & D and applications in microencapsulation.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

CSTB - CENTRE SCIENTIFIQUE ET TECHNIQUE DU BATIMENT

www.cstb.fr

CSTB (Scientific and Technical Center for Building) mobilizes its expertise to the quality and safety of buildings and their environment, serving the citizens in line with the challenges of sustainable development.

CSTB'LAB

www.cstb-lab.fr

CSTB'Lab is an incubator in the building Industry.

CTIF - CENTRE TECHNIQUE DES INDUSTRIES DE LA FONDERIE

www.ctif.com

CTIF is an Industrial Technical Center specialized in foundry.

CTIPC - CENTRE TECHNIQUE INDUSTRIEL DE LA PLASTURGIE ET DES COMPOSITES

www.ct-ipc.com

The CTIP, Industrial Technical Centre for Plastics and Composites (Ex. PEP) main mission is to anticipate, innovate, disseminate and transfer through collective action, collaborative and private individual in the field of plastics and composites.

CURIE CANCER (CARNOT)

www.curie.fr

Curie Cancer is supported by the Curie Institute, one of the leading European research centers specializing in Cancer, and offers to industrials research collaborations from upstream (cognitive research) to downstream (clinical research).

D

D&CONSULTANTS

www.detconsultants.com

D&Consultants is a consulting firm committed for 25 years to businesses and public actors in research and innovation.

DANEM

www.danem.com

DANEM is a software editor, specialized in the automation of mobile / mobile teams

DATA2I

www.data2i.fr

An expert in IT services for 15 years, Data2i is now recognized as an innovative company in the field of Data Science and Big Data.

DRACULA TECHNOLOGIES

www.dracula-technologies.com

Deeptech Startup, Dracula Technologies has created LAYER®, a printed technology that generates energy from ambient light. This is based on a process of manufacturing OPV cells by digital printing.

DRIVEQUANT

www.drivequant.com

We help industrial companies to connect a fleet of vehicles (clean or customers), simply, cheaply, almost instantly and with less risk to be able to capitalize on.

E

EASYMOV ROBOTICS

www.easymov.fr

Easymov Robotics offers a software package providing all the necessary skills for your mobile robots. Tailor-made training and development of the ROS (Robotic Operating System) open-source environment.

EC2 MODELISATION

www.ec2-modelisation.fr

Consulting firm focused exclusively on the numerical simulation, thermal and thermomechanical solids and structures activity.

ECCSEL-FR (INFRASTRUCTURE DE RECHERCHE)

ECCSEL-FR is the French node of ECCSEL, the European Research Infrastructure on CO2 Capture and Storage, a key climate change mitigation technology. Various research facilities for CO2 capture, transport, storage, and even use, are accessible by scientists and engineers.

ECO-TREAT

www.eco-treat.eu

ECO-TREAT is an eco-friendly paint dispenser.

EFS

www.efs.fr

The company EFS is ISO 9001-2008 certified for design and manufacturing of innovative products based on electronics, mechanics, optics and software.

ELASTOPOLE - POLE DE COMPETITIVITE CAOUTCHOUC ET POLYMERES

www.elastopole.com

Rubber and Polymer Competitiveness Cluster.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

EMBRC - CENTRE NATIONAL DES RESSOURCES BIOLOGIQUES MARINES (INFRASTRUCTURE DE RECHERCHE)

www.embrc-france.fr

EMBRC-France provides access to marine biological resources, through a single window, for researchers and companies in the blue bio-economy. The three sites offer access to the organisms, as well as laboratories, aquariums and analytical platforms to study them on site.

EMSO - EUROARGO - IICO (INFRASTRUCTURE DE RECHERCHE)

EMSO (European Multidisciplinary Seafloor and Water Column Observatory) is a European research infrastructure (RI) whose objective is to study in the long term and in real time the environmental processes related to interactions between the geosphere, the biosphere and the hydrosphere, including natural hazards.

ENERGICS (ACTION CARNOT FILIERES)

www.instituts-carnot.eu/fr/RetD-pour-entreprises-energie

Major actors of public research in the field of energy, 5 Carnot institutes come together to meet the needs of the energy sector companies with a diversified offer covering the entire energy chain.

ENERGIE ET SYSTEMES DE PROPULSION (CARNOT)

www.carnot-esp.fr

The Energy and Propulsion Systems Carnot institute gathers academic research laboratories and transfer centers technology addressing issues related to the optimization of energy and propulsion systems.

ENERGIES DU FUTUR (CARNOT)

www.energiesdulfutur.fr

The Carnot institute Energies du futur brings together actors of new energy technologies from Grenoble, with the aim to provide answers to the challenges of renewal energy policies and reducing greenhouse gas emissions.

ENOVASENSE

<http://www.enovasense.com>

Enovasense develops and manufactures thickness gauges of all types of industrial coatings. Through innovative patented technology, the measurement is made without contact with the part, in a non-destructive and instantaneous manner.

ENSAIT

www.gemtex.fr

Research laboratory of textile and flexible materials. Specialized in the fields of textile composites, materials and innovative processes.

ERDYN

www.erdyn.com

Senior science and technology consultant.

ESIEE PARIS

www.esiee.fr/fr/ecole/salles-blanches

engineering school

ESRF - EUROPEAN SYNCHROTRON RADIATION FACILITY (INFRASTRUCTURE DE RECHERCHE)

www.esrf.eu

Synchrotron radiation research institute.

EUDONET

www.eudonet.com

Publisher and integrator of solutions for the valorisation of research and development. We already work with SATTs, Carnot institutes, research laboratories as well as numerous clusters and clusters that we support in their development.

EURASANTE

www.eurasante.com

Eurasanté, as regional agency of economic development specialized, accompanies all the actors of the sector Biology Health Nutrition of the Nord-Pas de Calais in their research projects, the creation and the development of activity

----- - 26/02/2018 17:05:29 -----

Eurasanté is a development agency dedicated to tech transfer and business development in the life sciences sector. Since 1994, we work to promote the growth of the biology, health and nutrition sectors in the North of France.

EURAXI PHARMA

www.euraxipharma.fr

EURAXI is one of the oldest French full service CROs. We are accredited to the Research Tax Credit.

EUROBIOMED

www.eurobiomed.org

The pole of competitiveness EUROBIOMED is the accelerator of the development of the health sector, since the basic research up to the market, to the advantage of the patients and of the economy of the South of France.

EXELOP

www.exelop.com

Capitalize on know-how, feedback and patents to facilitate systematic innovation. Our easy-to-use solution leverages artificial intelligence to protect the company's most valuable asset: "expertise".

EXPERNOVA

www.expernova.com

Expnova has created the most important platform to link industries to research.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

EXTRA&CO (ACTION CARNOT FILIERES)

www.extra-co.fr

The Extra & Co project comes from a consortium of 4 Carnot Institutes (ISIFoR, BRGM, M.I.N.E.S, ICEEL) following response to the call for project CARNOT industry Extractive Industries and First Transformations. We support small, medium and ETI in their project of research and development in the field of mineral and energy resources of the subsoil .

E-ZYVEC

www.e-Zyvec.com

Design and production of modular DNA vectors made to measure for biological engineering R&D projects.

FAST SPOR'IN (ACTION CARNOT FILIERES)

Project from Carnot Institutes STAR, LETI and MICA for well being and sports.

FEEOBJECT

www.feelobject.fr

Feelobject has designed Virtuoz, a tactile and interactive map that allows visually impaired and blind people to move around buildings independently.

FINDMED (ACTION CARNOT FILIERES)

www.findmed.fr

The FINDMED consortium gathers 6 institutes devoted to health research (human or animal: CALYM, Curie-Cancer, Pasteur-MI, Voir et Entendre, ICM, France Futur Elevage), as well as 4 research structures which provide additional expertise in chemistry, formulation and data processing (Inria, CEA LIST, CHIMIE BALARD CIRIMAT, M.I.N.E.S). The objective of FINDMED is to facilitate the access of companies to their expertise and technological resources, so as to contribute to the reinforcement of the drug sector in France.

FLI & NEURATRIS (INFRASTRUCTURE DE RECHERCHE)

France Life Imaging is a national research infrastructure dedicated to biomedical imaging (<https://www.francelifeimaging.fr/>), while NeurATRIS is a national research infrastructure dedicated to translational research in neuroscience (<http://neuratris.com/>).

FOND D'INVESTISSEMENTS CHINOIS - DITCI

R&D investments and support, start-up incubator.

FONDERIES DE SOUGLAND

www.fonderiesdesouglan.fr

Cast iron and steel foundry which designs and produces parts weighing from a few grams to 2.5 tonnes, individually or in small- or medium-sized runs. R&D department and design office which realize operations from material choice to final design.

FRANCE BIOIMAGING (INFRASTRUCTURE DE RECHERCHE)

france-bioimaging.org

FBI is a National Research Infrastructure in Biolmaging (INBS-FBI) at the crossroads between molecular and cell biology, biophysics and engineering, mathematics and informatics. We develop, disseminate and give access to cutting edge technologies and methods in biological imaging.

FRANCE FUTUR ELEVAGE (CARNOT)

www.ic-sante-animale.com

The Santé Animale (ICSA) Carnot Institute gets together the main specialized operators of veterinary research in order to promote innovation in the fields of infectiology, food and animal genetics.

GANIL/CEA (INFRASTRUCTURE DE RECHERCHE)

www.ganil-spiral2.eu

Nuclear Physics Laboratory

GENCI GRAND EQUIPEMENT NATIONAL DE CALCUL - SIMSEO - PLATEFORME IDF (INFRASTRUCTURE DE RECHERCHE)

www.genci.fr

Created by GENCI, INRIA and OSEO and based on an integrated offer providing high value services, HPC for SMEs Initiative aims to allow French SMEs to assess and demonstrate the potential of using HPC in their innovation process and to improve their competitiveness.

GENOPOLE

www.genopole.fr

First French bioparc dedicated to living sciences.

GGBA - GREATER GENEVA BERNE AREA

www.ggba-switzerland.ch

Greater Geneva Berne area (GGBa) is the economic development agency representing six Cantons of Western Switzerland: Berne, Fribourg, Vaud, Neuchâtel, Geneva and Valais. Its primary mission is to support foreign-based companies looking to establish business operations in Western Switzerland.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

LES RENDEZ-VOUS CARNOT 2018

THE R&D MEETINGS FOR BUSINESS

11th edition

October 17th > 18th 2018

Cité des congrès - Lyon

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

GOOBIE

www.gobie.fr

The company's main activity is designing, achieving complete electronic systems (hardware, software and mechanical packaging), to industrialization and mass production.

GROUPE ZEBRA

www.groupezebra.com

H

HORIZON 2020 / PCN - PME, THÉMATIQUES

horizon2020.gouv.fr/PME

Driven by the Ministry of National Education, Higher Education, and Scientific Research, the PCN-PME network supports companies, especially SMEs, to participate to the European program Horizon

HYMAG'IN - SATT LINKSIUM

www.linksium.fr/projet/hymagin/

Start-up incubating at SATT Linksium. HYMAG'IN offers an industrial process for the production of magnetic nanomaterials by recycling ferrous waste. Targeted applications: effluent treatment, new materials, pigments, ferrofluid, EM shielding

I

I2C - INNOVATION-CHIMIE (CARNOT)

www.instituts-carnot.eu/fr/institut-carnot/i2c

With a strong expertise in synthesis, analysis and formulation, I2C capitalizes on this chemistry value chain as a privileged partner to support innovation for the pharmaceuticals, fine chemicals, food, bioresources, cosmetics, energy and environmental sectors industries.

IBCP - INSTITUT DE BIOLOGIE ET CHIMIE DES PROTÉINES (UNIVERSITÉ DE LYON)

www.ibcp.fr

IBCPinnov offers you a one-stop shop to access the thematic and technological skills of 200 researchers and engineers in the field of biochemistry and protein biology.

ICÉEL (CARNOT)

www.iceel.eu

The Energy and Environment in Lorraine Carnot Institute deploys strategy research partnerships to support the development of environmental technologies and eco-innovation.

IFPEN TRANSPORTS ENERGIE (CARNOT)

www.carnot-ifpen-te.fr

IFP Energies nouvelles is a public-sector research, innovation and training in the fields of energy, transport and environment.

IMAGINE (CARNOT)

www.institutimagine.org

Imagine Associated Carnot's main strength is to bring together, on a single site, a large number of genetic diseases' specialists with the aim to better understand these disorders to better diagnose and treat them.

INFLUTHERM

www.influtherm.com

Influtherm is a service company specialized in thermal science, which proposes complete and custom-made solutions to its customers.

INFRANALYTICS (INFRASTRUCTURE DE RECHERCHE)

INGENIERIE@LYON (CARNOT)

www.ingenierie-at-lyon.org

Major research center in the field of French engineering. The center's offer covers a wide range of scientific expertise services and technology (mechanics, materials, energy, processes, automatic, electric, electronics, biochemistry).

INNOVATECH CONSEIL

www.innovatech-conseil.fr

Unique know-how and network on the market, combining expertise in economic, financial, accounting, tax, legal, social and legal aspects with extensive knowledge of innovation and research and development.

INNOVISTA SENSORS - CROUZET

www.innovistasensors.com

Designer, manufacturer and global supplier of efficient automation components for a wide range of applications.

INPI

www.inpi.fr

THE INPI is a public institution placed under the supervision of the Ministry of the Economy, Finances and the Foreign trade, the ministry of the Industrial recovery and Vice-minister in charge of Small and medium-sized enterprises, the Innovation and the digital Economy.

INRIA (CARNOT)

www.inria.fr

INRIA, public research institute in digital science, guarantees a maximum impact of its R&D production and participates in the French innovation effort by transferring technologies and skills to Industry.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

INSTITUT DU CERVEAU ET DE LA MOELLE EPINIÈRE (CARNOT)

www.icm-institute.org

ICM - the French Brain and Spinal Cord Institute - is a private institute dedicated to International Research on nervous system diseases.

INSTITUT LAUE LANGEVIN (INFRASTRUCTURE DE RECHERCHE)

www.ill.eu

Neutron characterisation, Non-destructive residual stress analysis.

INSTITUT LUMIERE MATIERE (UNIVERSITÉ DE LYON)

ilm.univ-lyon1.fr

Excellence in Physics and Chemistry Research. Joint research laboratory of the Université Claude Bernard Lyon 1 and the CNRS (UMR5306)

INSTITUT MAUPERTUIS (MEMBRE AFCRT)

www.institutmaupertuis.fr

Specialized in automated production, the Institut Maupertuis has developed its expertise in assembly technologies : welding, laser cutting, surface treatments.

INSTITUT PIERRE-GILLES DE GENNES POUR LA MICROFLUIDIQUE (CARNOT)

www.institut-pgg.fr

Microfluidics is the science of manipulation of small fluid volumes. By saving time and cost, microfluidic technology gives rise to disruptive innovations in many fields: medicine, chemistry, biology ..

INTERFACES (CARNOT)

www.carnot-interfaces.fr

Affiliated with UPMC, CNRS and INSERM, the Interfaces Institute groups 5 research units specialized in: Computer science, in particular in the domains of connected objects, safety and reliability (LIP6). Robotics and Intelligent Systems (ISIR). Biomedical Imagery (LIB). Medical Informatics and biomedical knowledge management for e-health (LIMICS). Clinical and experimental respiratory neurophysiology (UMRS 1158)

IPSIDE

www.ipside.com

The IPSIDE firm assists and advises clients in the process of obtaining, operation and defense of their patents of invention, both in France and abroad.

IRSTEA (CARNOT)

www.irstea.fr

IRSTEA Carnot Institute carries out research to respond to the current environmental issues in the fields of water, natural risks, land planning and environmental technologies.

ISIFOR (CARNOT)

www.carnot-isifor.eu

ISIFoR (institute for the sustainable engineering of fossil resources) assembles a group of skills in sustainable Engineering of fossil resources, covering Geosciences, Mathematics, Chemistry and Engineering Sciences.

IXXO

www.ixxo.fr

Editor software specialist search engines and Web mining for implementation before, IE and innovation development.

K

KEM ONE INNOVATIVE VINYLs - CATALYSE

www.catalyse-fr.com

Studies and research in polymers.

KICKLOX

<https://www.kicklox.com/>

The 1st collaborative engineering platform that provides the solution to your engineering and innovation needs through its community of qualified engineers.

L

LABEX ARCANE

www.labex-arcane.fr

ARCANE aims to develop and apply novel multifunctional molecules using the creative power of chemistry driven by state of the art molecular biology techniques.

LABEX SACLAY PLANT SCIENCE

www6.inra.fr/saclay-plant-sciences

Plant biology applied to strategic issues such as scientific understanding of the mechanisms at work in the plant.

LABORATOIRE DE BIOMÉCANIQUE ET MÉCANIQUE DES CHOCS (UNIVERSITÉ DE LYON)

www.lbmc.ifsttar.fr

LBMC conducts researches in the field of transport for improving the comfort and safety of the users and in the field of health related to orthopaedics, and functional rehabilitation to contribute to the future of transport and medicine.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

LABORATOIRE NATIONAL DES CHAMPS MAGNÉTIQUES INTENSES (INFRASTRUCTURE DE RECHERCHE)

www.lncmi.cnrs.fr

The LNCMI is a research infrastructure hosting experiments (spectroscopy UV-VIS-NIR-THz, NMR, EPR, magnetization, transport...) in intense static (37 T) and pulsed (210 T) magnetic fields. It is open to users and industrial partnerships.

LACTIPS

www.lactips.com

Manufacturer of innovative Plastic base of milk protein, Lactips propose 100% natural solutions ,completely biodegradable completely (EN13432) , edible (or not), soluble (cold and hot).

LEITAT TECHNOLOGICAL CENTER

www.leitat.org

Leitat promotes the implementation of industrial innovation strengthening modernization of the productive structures and the development of new high technology value products in many different sectors.

LEMO FRANCE

www.lemo.com

LEMO is the leader in the design and manufacture of precision connectors. LEMO Push-Pull connectors are available in a wide range of demanding applications including nuclear, medical, industrial control, test & measurement, audio-video, telecommunications and more.

LETI (CARNOT)

www.leti.fr

The Carnot institute CEA LETI (Laboratory of Electronics and Information Technology) is a research laboratory of CEA, specializing in micro and nanotechnologies and their applications.

LSI (CARNOT)

www.carnot-lsi.com

The LSI Carnot institute (Software and Intelligent Systems) covers the whole chain software production (modelling, design, implementation, administration and development) for health applications, automation and embedded systems.

LYON BIPOLE

lyonbiopole.com

Lyonbiopôle is a competitiveness cluster focused on pharmaceutical activities, particularly in the fight against human and animal infectious diseases and cancers.

M.I.N.E.S. (CARNOT)

www.carnot-mines.eu/fr

Inter-disciplinary laboratory.

MANUTECH (UNIVERSITÉ DE LYON)

www.manutech-usd.fr

The objectives of Manutech are to develop the understanding and control of surface phenomena, such as wear, friction, fatigue resistance, chemical reactivity, wettability, visual and tactile aspects.

MATERIA NOVA ASBL

www.materianova.be

Research center dedicated to materials.

MDP MAXON MOTOR FRANCE

www.mdp.fr

Design and manufacture of mechatronic devices dedicated to medical devices, aeronautical actuators, industry, robotics, automobiles and e-mobility

MECANIUM

www.mecanium.fr

Mechanical testing center for strength of materials and characterization of the mechanical behavior of structures.

MECD (CARNOT)

www.mecd.fr

MECD is a research, transfert and development consortium in the field of materials, constituents and equipments for the sustainable construction.

MEDICEN

www.medicen.org

Global competitiveness cluster of innovative technologies for the healthcare and new therapies.

Medicen facilitates in the areas of human health (prevention, diagnosis, therapy, associated technologies), the transfer of innovation to the industry, market, and the patient.

MICA (CARNOT)

www.carnot-mica.com

The MICA (Materials Institute Carnot Alsace) Carnot Institute proposes a structured and professional research partnership offer in the field of functional materials based on the concepts of functionality, processes & uses.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

MS NUTRITION

www.ms-nutrition.com

MS-Nutrition is a Young University Company offering a unique expertise in Modeling and Statistics for Nutrition in the framework of research projects.

MYBRAIN TECHNOLOGIES

www.mybraintech.com

MyBrain Technologies (MBT) is a spin-off of the Institute for Brain and Spinal Cord Disorders (ICM) at the Pitié-Salpêtrière.

N

NAE - NORMANDIE AEROSPACE

www.nae.fr

Normandy AeroEspace is the industrial sector of excellence in Normandy in the fields of aeronautics, space, defense and security.

NANOE

www.nanoe.com

Nanoe produces and sells nanopowders for producing advanced materials.

NORIMAT

www.norimat.com

Norimat is a start-up based on Spark Plasma Sintering.

NOVECAL

www.novecal.com

Catalysis for fine chemistry

O

ONERA

www.onera.fr

ONERA ISA (Aerospace Systems Engineering) is a set of ONERA laboratories bringing together skills in the design of future aerospace platforms.

OPTIFLUIDES (MEMBRE ASRC)

www.optifluides.net

Studies, researches and development in fluids mechanics. Numerical simulations, measurements, comparison models / experiments.

ORION

www.orion-groupecera.com

Orion has developed its know-how since a 20 years in the custom work of soft materials.

OVERSCAN

<http://www.overscan.com>

IT services: development of the Internet and multimedia, graphic design.

P

PACK'AERO MECATRONIQUE

www.packaero.com

PACKAERO MECATRONIQUE offers smart actuators, voice coil, solenoid, moving magnet actuators, contactless position sensors, mechatronics and detection systems.

PASTEUR M&S (CARNOT)

www.pasteur.fr

The Pasteur Maladies Infectieuses (Pasteur Infectious Diseases) Carnot Institute gathers five specialized departments of the Institut Pasteur: Virology, Microbiology, Parasitology & Mycology, Infection & Epidemiology, cell Biology & Infection.

PHOTON LINES

www.photonlines.com

Specialized in the distribution of optical instrumentation for professionals. Photon Lines supplies a range of camera into low light level, high speed vision and Imaging application as well as high technology lasers and laser components into the fields machine vision, life sciences, military, Aerospace, semiconductor, pharmaceutical and scientific research.

PLANT2PRO (CARNOT)

The Plant2Pro Carnot Institute is dedicated to integrated R&D "from laboratory to field" in the area of agricultural crop production.

PLS FLUID DYNAMICS (MEMBRE ASRC)

www.pls-fluid-dynamics.com

CFD simulation; design and production of prototypes and test benches.

PLUG IN LABS

www.pluginlabs-universiteparisclay.fr

the tool for connecting companies to the world of research.

POLE EUROPEEN DE LA CERAMIQUE

www.cerameurop.com

Cluster dedicated to innovative and technical ceramics. Network of 70 manufacturers, 5 laboratories, 8 technical centers specializing in surface treatment, technical ceramics and decorative ceramics.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

POLYNAT (CARNOT)

www.polynat.eu

POLYNAT Carnot institute participates to the elaboration and valorisation of functional materials with high-added value, being either "hybrid materials" (mainly coming from fossil and natural resources) or entirely bio-based materials.

PORTAIL MEANS (UNIVERSITÉ DE LYON)

www.means.fr

Portal grouping together the service offer around the Claude Bernard Lyon 1 University's instrumental park for industrialists.

POSITHÔT - LA MANUFACTURE D'ANTIMATIÈRE

www.posithot.com

Provision of surface analysis services and non destructive testing

PRAXENS

www.praxens.fr

Technical centre implementing the benefits of R&D in food and cosmetics.

PROTO LABS

www.protolabs.fr

Proto Labs is the world's fastest source of personalized prototypes and small to average series of parts.

Q

QUALIMENT (CARNOT)

www.qualiment.fr

Qualiment® Carnot Institute provides the necessary scientific and technological means to support industrialists with their projects aiming at improving and developing food products.

R

RAC ELECTRONIC

www.rac-electronic.fr

Design and realize electronic systems in partnership with industrialists, adapted to users and industrial constraints.

RELAYR

www.relayr.io

Relayr is an IoT company for the Digital Transformation of Industries. We provide a device, hardware and sensor-agnostic enterprise middleware platform, and powerful, simple-to-use tools which enable fast and cost effective development of new solutions, equipment and services for the Internet of Things.

RESCOLL (MEMBRE ASRC)

www.rescoll.fr

RESCOLL is Service Company specialized in R&D, analysis and characterization, prototyping and manufacturing.

RESEAU CTI

www.reseau-cti.com

The CTI network facilitates, boosts and promotes innovation thanks to community work.

RESEAU SATT

www.satt.fr

Reseau SATT is a key and innovative player in technology transfer.

RHEAWAVE (MEMBRE PEC)

www.rheawave.com

RHEAWAVE offers solutions measurements for quality control of the viscoelastic properties of finished products or during manufacture . It relies for this on a patented ultrasonic technology, also sensitive to the presence of microbubbles or microcracks in the material.

RHEONIS

www.rheonis.com

Continuous improvement & Applied Research technical services for Transformation Industry.

RHEONOVA

www.rheonova.fr

Private laboratory and research department in rheology and fluid mechanics.

ROSSOW

www.rossow.fr

Rossow offers high-quality ingredients made from renowned partners.

RSAI RS AUTOMATION INDUSTRIE

www.rsautomation.com

Designer and manufacturer of custom electronic solutions.

S

S2P - SMART PLASTIC PRODUCTS

www.s-2p.com

S2P facilitates electronics integration in various products while adapting to design constraints.

SATT AQUITAINE SCIENCE TRANSFERT

www.ast-innovations.com

Technology Transfer Office of the University of Bordeaux between researchers and industrial partners.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

LES RENDEZ-VOUS CARNOT 2018

THE R&D MEETINGS FOR BUSINESS

11th edition

October 17th > 18th 2018

Cité des congrès - Lyon

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

SATT AXLR

www.axlr.com

Transfer and commercialization of innovative technologies issued from research laboratories.

SATT ILE-DE-FRANCE INNOV

www.idfinnov.com

SATT IDF INNOV is a private TLO with exclusive rights on technology detection, seeding and commercialization over a vast academic territory in the Paris Metropolitan Area.

SATT OUEST VALORISATION

www.ouest-valorisation.fr

Dedicated to the amelioration of public research results, SATT OUEST VALORISATION supports projects from six university centers of the regions of Bretagne and Pays de la Loire - 28 schools and 3 research organizations.

SATT OUEST VALORISATION

www.ouest-valorisation.fr

Dedicated to the amelioration of public research results, SATT OUEST VALORISATION supports projects from six university centers of the regions of Bretagne and Pays de la Loire - 28 schools and 3 research organizations.

SATT PULSALYS

www.pulsalys.fr

Technology Transfert Agency of Lyon and Saint-Etienne territories.

SATT TOULOUSE TECH TRANSFER

www.toulouse-tech-transfer.com

Technology Transfer Acceleration Company of the Midi Pyrénées region.

SCIENCE ET SURFACE

www.science-et-surface.fr

Science et surfaces provides a broad range of resources and analytical techniques in order to deliver physical and chemical characterisation of surfaces and interfaces of materials.

SEE FAST TECHNOLOGIES - PHOTON LINES (MEMBRE OPTICSVALLEY)

www.seefastechnologies.com

Manufacturer of rapid intelligent cameras 250-500 images / sec.

SKALES

skales.fr/fr/home

SKALES develops an open-source platform dedicated to high-performance scientific computing, enabling the labs to improve the quality and performance of their numerical simulation tools.

SMILES (CARNOT)

asclepios.dsi.upmc.fr

Mathematical Sciences.

SOFT MATERIALS ENGINEERING

www.sme-be.com

Design office specialised in technical textiles and soft materials. Design of soft technical solutions with added functions as well as waterproof and inflatable products.

SPINOVA

spinova.fr

Management consulting of the original idea, innovative project.

STAR (CARNOT)

www.icstar.fr

The Carnot Institute STAR is an interdisciplinary organization divided into 5 operational groups: Materials and Processus, Components and electronic and photonic systems, Security of systems and risks, Transfer flowing, Imagining and diagnostics.

STIM

www.wearestim.com

Stim is the start-up that supports companies in innovation management with C-K method. Our mission is to spread the best methods and tools for radical innovation.

STIMSHOP

www.stimshop.com

Stimshop allows any sound system or speaker to become a marketing and communication tool, detecting and interacting with smartphones...

SYNCHROTRON SOLEIL (INFRASTRUCTURE DE RECHERCHE)

www.synchrotron-soleil.fr

Research and industry services center working on living matter (analysis, characterization, control, observation ...) and complex materials using synchrotron technics.

T

TECHNIQUES DE L'INGENIEUR - EDITIONS TI

www.techniques-ingenieur.fr

Articles, scientific and technical documentation. News, networking, consulting and training.

TÉLÉCOM & SOCIÉTÉ NUMÉRIQUE (CARNOT)

carnottelecom.mines-telecom.fr

The Carnot Institute Telecom & Société numérique develops IT technologies and their applications for the digital company.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

LES RENDEZ-VOUS CARNOT 2018

THE R&D MEETINGS FOR BUSINESS

11th edition

October 17th > 18th 2018

Cité des congrès - Lyon

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

TESCAN ORSAY HOLDING - TESCOAN ANALYTICS (MEMBRE ASRC)

www.biophyresearch.com

Laboratory of analysis for materials. Expertise and analysis services for surfaces, interfaces and nanomaterials industry.

THEOREM (IFREMER-ECN) (INFRASTRUCTURE DE RECHERCHE)

theorem-infrastructure.org

A network of test facilities for Hydrodynamics and Marine Renewable Energies

THIEME

www.thieme.eu

THIEME is specialized in the development and the manufacturing of industrial plastic parts.

TN@UPSACLAY (CARNOT)

www-list.cea.fr

CEA LIST Carnot institute (Research laboratory working on systems and technology integration) focuses its R&D programs on technologies for smart numerical systems.

TOHTEM PLM

www.tothem.fr

Development of industrial products: the study to achieve Council PLM tools for SME...

TOTAL DEVELOPPEMENT REGIONAL

www.total.com

Support for SMEs in the following areas of expertise: energy, industry, mobility, cleantech, instrumentation, chemistry.

TOYO ALUMINIUM K.K - TOYAL EUROPE

www.toyal-europe.com

Toyal Europe, a subsidiary of Toyo Aluminium K.K. , produces and sells the European market, aluminium pigments and powders. We benefit from the significant research and development activities of Toyo Aluminium K.K., in addition to local resources for new product developments.

TRONICO

www.tronico-alcen.com

TRONICO is a major supplier of OEM's electronic systems for Aeronautic, Defence & Security and Space. In addition to its core EMS (Electronic Manufacturing Services) business, TRONICO has also established itself as an EDS provider (Electronic Design Services) in the development of complex electronically dominant systems.

UNIVERSITÉ DE LYON

www.universite-lyon.fr

Université de Lyon brings together in a unifying structure 11 higher education and research institution of the Lyon/Saint Etienne metropolitan area.

UNIVERSITE DE TOURS

www.univ-tours.fr

The University of Tours is a French multidisciplinary university based in Tours.

UNIVERSITÉ JEAN MONNET (UNIVERSITÉ DE LYON)

Computer research and development. Chatbot, Heterogeneous Data, Web Data, Complex Data Modeling, Semantic Web Techniques and NLP.

VALOTEC (MEMBRE ASRC)

www.valotec.fr

ValoTec designs and manufactures prototypes for clients (large companies, SMEs, startups, laboratories) in different industrial sectors (sensor, medical diagnostics, defense, automotive, ...).

VIANEO

www.vianeo.io

Software company in the field of innovation management.

VIBRATEAM - VIBRATEC (MEMBRE ASRC)

www.vibratec.fr

Vibratec's goal is to help industrials optimising their products and their production tools (all industrial fields).

VIRHEALTH

www.virhealth.fr

VirHealth company is located in the research lab Virologie et Pathologie Humaine (VirPath, University Claude Beranrd Lyon).

VOIR ET ENTENDRE (CARNOT)

www.fondave.org

The Carnot Institute Voir et Entendre gathers the world leading laboratories in the fields of sight and sounds, favorite interlocutors of the sector's industrials.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com

For the past 10 years, we have supported companies in their innovation projects.

THE EXHIBITOR'S LIST REGISTERED BY 21/09/2018

W

WALLONIE BRUXELLES INTERNATIONAL

www.wbi.be

Wallonia-Brussels Delegation based in Paris, represents governments from Wallonia-Brussels Federation to French authorities.

WELIKESTARTUP

www.welikestartup.com

1st Innovation Financing Network of France. With its endowment Fund, its Accelerator, its consulting company, its own or associated investment funds and its partner networks, WeLikeStartup structures the innovation financing ecosystem.

WISEBATT

www.wisebatt.com

Battery enhancement.

WIZZCAD

www.wizzcad.com

WizzCAD has developed a BIM-based SaaS platform in order to digitalize lifecycle processes of the buildings (construction, operations, FM). Beyond its success on more than 750 projects, the company has tested innovative use-cases (occupant interaction, BMS integration) in 2017.

Z

ZEBRYS

www.rplusplus.com

R ++ the Next Step is a project for the development of a high performance oriented static language and software. It is compilable, integrates native parallelism management and allows the exploitation of large databases. It is also a business software integrated into a modern and user-friendly Human Machine Interface, in order to be easily accessible to non-computer users. Finally, R ++ allows object-oriented programming. By analogy with C ++ and C, it is called R ++.

Contact us at: + 33 (0)1 46 90 22 35 or renseignement@rdv-carnot.com - www.rdv-carnot.com
